

SPEECH THERAPY

The Goal of Speech Therapy is to...

improve cognition, swallowing, and communication. Speech Therapy utilizes play activity to improve language development and speech intelligibility with the pediatric population. Speech Therapy assists with eating and swallowing skills in the pediatric and adult populations. Persons with cognitive impairment following stroke or head injury also benefit from Speech Therapy.

Our program focuses on:

- Language Skills
- Stuttering
- Social Communication
- Cognitive-linguistic Skills
- Speech Delays/Disorders
- Assistive Technology
- Swallowing Disorders
- Voice Disorders

PHYSICAL THERAPY

Physical Therapy is a profession whose practitioners utilize movement, various hands-on techniques, exercise of all types, and modalities (heat, electrical stimulation, ultrasound, etc) to improve the quality of life that you desire.

The Goal of Physical Therapy is to... treat movement dysfunctions and pain to further assist you in achieving the highest and safest level of function possible over the shortest time period.

Treatment Diagnoses Include...

- Sports and Work-related Injuries
- Sprains and Strains
- Low Back Pain
- Post-Op Rehab
- Total Joint Rehab
- Work Conditioning
- Bracing and orthotics

Available at Indiana Total Therapy West, East, Homer City, & Blairsville

Available at Indiana Total Therapy East & Blairsville

OCCUPATIONAL THERAPY, HAND THERAPY & WORK HARDENING

Occupational Therapy is a healthcare profession that provides services to individuals whose lives have been disrupted by physical injury, illness or developmental delays.

The Goal of Occupational Therapy is to...

evaluate and treat a person's ability to perform activities of daily living (ADL's) involving work, self-care, play and leisure skills. Occupational Therapists can modify or accommodate daily tasks to promote maximum functional independence.

Treatment Diagnoses Include...

- Hand Therapy
- Neurological Therapy
- Arthritis Therapy
- Cognitive Testing and Rehab
- Pre-Drivers Assessment
- Back to Work Assessments
- Wheel Chair Clinics
- Custom Splints

Available at Indiana Total Therapy West, East, Homer City & Blairsville

PEDIATRIC THERAPY

The Goal of Pediatric Therapy is to... ensure that each child with special needs receives all of the services that they may benefit from in order to reach their full potential within their home, school, and social environments.

We treat children with conditions such as:

- Autism Spectrum Disorders
- Mental Retardation
- Spina Bifida
- Cerebral Palsy
- Muscular Dystrophy
- Neurological Conditions
- Orthopaedic Conditions
- Articulation/Phonological Disorders
- General Development Delays
- Language Delays
